SATURDAY, AUGUST 25, 1894.

ARMOR PLATE FRAUDS.

The House Committee appointed to investigate the armor plate frauds has submitted a preliminary report. It finds the charges of fraud sustained and recommends that a number of the plates now in use be taken off the vessels and tested. It finds that the Government Inspectors were negligent, but no charge of collusion with the contractors rests upon the Inspectors.

The Committee finds that the General Manager of the Carnegie Company, who is also a stockholder in the company, knew of the frauds. It denounces the frauds as crimes, and says a money compensation for such wrongs is inadequate atonement and it recommends that such frauds be made punishable as crimes.

The Carnegie Company had a monopoly of the armor plate business. Foreign manufacturers were not permitted to compete with them and they had the only factory in the United States capable of furnishing plates. Their love of lucre exceeded their patriotism and for the sake of gain they would endanger the safety of a battleship by furnishing it with defective armor and placing it at the mercy of the enemy. The committee truthfully says that a money compensation is inadequate for such rascality. Carnegie should never return from the estates which he has purchased in Europe with the money which he fraudulently accumulated in the United States, ought to be brought before the bar of justice to answer for the frauds which he has perpetrated on the Government. Napoleon had men tried by drum-head court-martial and shot for less treasonable acts.

AT SEA.

The Republican State Convention met here yesterday for the purpose of nominating a Congressman and State ticket. The number of delegates in attendance is about equal to that in the bolting convention two years ago. There are three delegates from Elko, none from Eureka, one from Lander (the State Controller), one from Humboldt and one from White Pine. The deficiency is made up, however, by members from Ormsby and Washoe, who represent individuals, not the party, as no primary elections were held in several counties and there are no Central Committees in those counties to appoint delegates. The Convention is, therefore, composed of some delegates who were elected at primary meetings and others who represent only themselves, as they were neither elected nor appointed.

The delegates say it is difficult to get candidates for the several offices. There are not many of the old war horses who are willing to sacrifice themselves for a party name. Colcord, Horton, Bartine and other standard bearers will not enter the fight unless forced to do so. The delegates admitted that they were like an army without a general. All looked to Cleveland of White Pine, who arrived late in the afternoon, to bring order out of chaos.

NEW ENGLAND SATISFIED.

New England wants the tariff question taken out of politics. The manufacturers are satisfied with the tariff bill just passed by Congress. Wool is on the free list and all articles manufactured from wool are taxed. This protects the manufacturers but not the woolgrowers. Hides are on the free list, in fact they were under the new bill. Massachusetts shoemakers claim that free hides enable them to compete with European shoemakers, yet boots and shoes are taxed, though brogans for the French army are sometimes made in Massachusetts.

The Providence, Rhode Island Journal, a Republican newspaper published in the center of the largest textile manufacturing community in the United States, now advocates a suspension of tariff discussion. It claims that it disturbs business and is injurious to the interests of the country. A big boom, it asserts, would come to business if the tariff was taken out of politics forever. It is satisfied with the new tariff law, and if any changes are made in the schedules it would have them arranged by a commission of business men and not by politicians, who, as a general thing, know nothing about the effect on the industries of the country.

RAILROADS.

Poor's Manual presents a vast array of facts and figures regarding railroads in the United States. It shows that up to December 31, 1893, the length of track was 177,753 miles, a net increase of mileage for the year 1893 of 2,519 miles.

The total assets of the companies owning the roads are given at \$11,855,969,166 and the total liabilities at \$11,443,888.

During the year 728,965,973 passengers were carried various distances, the total distance represented by their travels being 15,217,711,932 miles. The total earnings of the road, for the year amounted to \$1,222,618,290 and the operating expenses to \$858,027,181, showing the net earnings to be \$364,591,109.

The liabilities of the roads are about equal to what the roads cost, and exceed what they could be duplicated for at the present time.

The cost of maintaining the charitable institutions of Illinois last year was \$1,338,642.

FATAL MINE EXPLOSION.

Budd's Home People Celebrate His Nomination.

POPULISTS OF NEBRASKA.

A Labor Commissioner's Open Confession.

THE CALIFORNIA DEMOCRATS.

Jas. H. Budd Receives the Nomination for Governor.

SAN FRANCISCO, August 24.—The convention was called to order at 10:20. In accordance with the order of business considerable time was consumed in the announcement by various county delegations of their selections for members of the State Central Committee. The next business will be the nominations for Governor.

After the committeemen had been named, Wm. Matthews of Santa Clara nominated Dargay D. Murphy. F. D. Nichols of San Joaquin took the stand and nominated James H. Budd. At the mention of the latter's name the convention went wild and it took some time for the chairman to enforce quiet. Gavin McNab of San Francisco nominated James G. McGuire; R. Barcar of Solano nominated Dennis Spencer of Napa. Ostrom of Yuba had concluded to withdraw from the fight so he was not named. A roll-call was ordered and the first delegate called was Chas. Stewart and he shouted the name of Budd, and there were prolonged cheers. Three ballots were taken and Budd was nominated on the last ballot by a vote of 395, it requiring 327 votes for a choice.

Convention re-assembled in the Odd Fellows hall. The nominations for Lieutenant Governor were called for and W. R. Burke of Los Angeles was nominated. Wm. T. Jeter of Santa Cruz, and J. D. Sproule of Butte nominated A. F. Jones of Colusa, but Jones declined the honor, saying that Southern California should be given a show. B. J. Davis of Sonoma nominated M. E. C. Mundy of Los Angeles, and Byron Waters nominated E. W. Britt of San Diego. The nominations were then declared closed and the roll-call was ordered.

Jeter led all through. The result was, Jeter 431, Britt 155, Mundy 60. Los Angeles did not give Mundy its vote, voting 18, Britt 10, Mundy 5, total vote 647, necessary to choose 324. Jeter was declared the nominee and Britt moved to make it unanimous.

Jeter was received with cheers when he appeared on the platform. He said his nomination was as unexpected as any in which political lightning ever struck. His candidacy commenced at 4:30 o'clock this afternoon. He endorsed the platform. Nominations for Secretary of State were then called for. W. H. Alvord, the recently nominated Congressman from the Seventh district, nominated Ben Maddox of Visalia.

Alvord made stirring speeches, the best yet made in the Convention, and aroused great enthusiasm. His slighting references to Reed, McKinley, Gorman, Brice and Smith were greeted with loud cheers. Nicholas Bowden of Santa Clara nominated George Washington Peckham of Santa Clara, R. P. Troy of Placer nominated M. H. Mead of Sierra. The roll was then called. Maddox led when Mead withdrew his name saying that an unfair fight was being waged against him because poverty had overtaken him and in his advancing years he had been obliged to take a position in the U. S. Mint. It was a clever electioneering speech and gained Mead many votes. If it had been made earlier he might have given Maddox a close race. Maddox won by the following vote: Maddox 422, Mead 382, Peckham 42.

The Convention then decided to limit the nominating speeches to two minutes and to dispense with seconding speeches altogether. T. Garrity of Alameda nominated Henry C. McKee for attorney-general. Byron Waters nominated A. B. Paris of San Bernardino. The Convention was in such continual confusion that Chairman Del Valle's voice gave out and he called M. Lurie to the Chair. The vote for Attorney-General resulted, Paris 491, McKee 144.

Motions to adjourn were repeatedly voted down. Paris said he stood on the Democratic platform flat-footed with both feet. For State Treasurer, W. R. Jacobs of San Joaquin nominated William Edelman of San Francisco, Clay Webster Taylor of Shasta named Caleb Wilcoxen of Sutter, James T. Murphy of Santa Clara nominated J. C. Castro of San Luis Obispo. The vote stood, Castro 307, Edelman 212, Wilcoxen 204; necessary to a choice 307. A second ballot was therefore ordered. On the second ballot Castro was nominated. For State Controller, M. Meagher of San Francisco, Felix Dunn of Sacramento and R. M. Turner of Alameda were nominated. First ballot Turner 295, Dunn 110, Meagher 140; necessary to a choice 324. Convention adjourned until 8 a. m.

H. M. Lurie of Sacramento was nominated for railroad commissioner for the first district over Edwin Swinford of Colusa by a vote of 145 to 56.

R. H. Beamer was nominated for the Board of Equalization from the third district.

W. Phillips was nominated Railroad Commissioner from the third district by acclamation. W. J. Hutchinson of Fresno, who had been a candidate, was not nominated. Phillips is a banker at Fresno. In the first railroad district Dr. James I. Stanton of San Francisco was nominated Commissioner over W. M. Hinton.

J. C. Nealon was nominated for the Board of Equalization from the first district. Congressman J. C. Maguire was renominated from the fourth district.

CARSON CLEANINGS.

The United States Grand Jury Finds Indictments—A Big Deal.

CARSON, August 24.—The United States Grand Jury has indicted J. C. March, A. Thompson, Thomas Cleary, Patrick Martin, Samuel Howard and James Cummings on charges of obstructing the U. S. mails. Bail was fixed at \$2,500 each.

It is reported here that the Tahoe Lumber and Flume Co. has sold out to the Sierra Lumber and Flume Co. There are many conflicting rumors in circulation about the deal.

One is that D. O. Mills wanted to sell his railroad interests to the Sierra Co., which is owned by the Hobart estate, but that the Sierra Co. refused to take the Carson & Colorado railroad at any price.

Another version is that the Tahoe Flume Co. has purchased the lumber interests of the Sierra Co. and that General Marlett has sold his interest in the Sierra Co. It is said that D. L. Bliss will be at the head of the new company while others insist that Joseph Overton will be the new manager.

Budd's Nomination Appreciated.

STOCKTON, August 24.—Stockton celebrated to-night the nomination of Budd for Governor and a general jubilation followed. Steam whistles screeched, church bells were rung, bon fires blazed, bands played and his many friends marched about town shouting and cheering for Jim Budd. The nomination was received here with general rejoicing.

Many That Opposed the Strikers had the Same Reasons.

CHICAGO, August 24.—Labor Commissioner Carroll Wright, who has been appointed by the President to investigate the recent strike, admitted that he traveled in Pullman cars on a pass. He says Pullman gave him the pass several years ago and he has used it ever since.

The Omaha Populists.

OMAHA, August 24.—The Populist State Convention nominated for Governor Silas A. Holcomb. The platform demands the free coinage of silver at the ratio of 16 to 1.

Another Fatal Gas Explosion.

ASHLAND, Pa., August 24.—Two men were killed and eleven badly injured by an explosion of gas in the Gilberton colliery to-day.

Terrible Loss of Life.

SEATTLE, Wash., August 24.—A terrific gas explosion occurred at breast 82 on the sixth level of the Franklin mine at Franklin, near this city, this afternoon. Sixty-two miners were imprisoned and thirty-seven were killed. The rest escaped alive. The fire was soon extinguished and the work of taking out the bodies began. All have been recovered. About half the miners were negroes, having been brought from the East four years ago to replace the strikers.

The mine is owned by the Oregon Improvement Company and produces the best coal in the State of Washington. The damage to the mine is not large.

A Lender.

Since its introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of the Stomach, Liver or Kidneys. It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c per bottle. Sold by S. J. Hodgkinson.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at S. J. Hodgkinson's drug store. Large size 50c and \$1.

Cocoon Cream.

Is the latest and best of all toilet creams to render the skin soft, white and beautiful without injury to it. It is excellent for sunburn and to remove tan and freckles and other blemishes. Every lady should have a bottle and it may be had of William Pinniger.

Does a business man want the services of a clerk whose penmanship looks like the wobbly wake of an inky angle-worm? See my add on "Penmanship." O. A. BARNARD.

Special Notice.

Sweeping clearance sale at Emrich's, next door to the Nevada Bank. I will sell for cash for two weeks my entire stock of dry goods, fancy goods, carpets, rugs, shades, curtains and linoleum at actual wholesale cost. No such offer has ever been made, and every lady should take advantage of it. ag24w2 S. EMRICH.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25c per box. For sale by S. J. Hodgkinson.

Messrs. Rea & Marra, next to the Pawning building, have just received a large consignment of fine wines in casks. The varieties are white wine, claret, sherry, port and also some fine grape brandy. They are prepared to sell to dealers or families in any quantity. They will deliver to any part of town, and their prices are reasonable. a15-6t

Oh, give me teeth sound, white and neat,
Oh, give me breath that's pure and sweet,
Oh, give me rosy, healthful gums,
And I will meet whatever comes:
Whatever trouble may befall,
With Soudont I'll meet them all.

A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply: By the use of Ayer's Hair Vigor—nothing else." "In 1868, my affianced was nearly bald, and the hair which she kept falling out every day, I induced her to use Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair restorer. It is all that it is claimed to be."—Antonio Alarum, Bishop, Tex.

AYER'S
HAIR VIGOR
PEOPLES' PARTY
PRIMARIES.

HEADQUARTERS OF THE COUNTY CENTRAL COMMITTEE OF THE PEOPLES' PARTY OF WASHOE COUNTY.

AT A MEETING OF THE COUNTY CENTRAL COMMITTEE OF WASHOE COUNTY, held at Reno, August 23, 1894, it was resolved that a

Primary Election
BY THE
Peoples' Party of Washoe County

Be held in the several election precincts of said county on

Saturday, September 15th, 1894.

Between the hours of 1 and 8 o'clock P. M. of that day to elect delegates to the

County Convention
to be held at

RENO, SEPTEMBER 20, 1894.

At 10 o'clock A. M. of said day to nominate a full set of

County Officers and
Members of the Legislature.

Resolved, That the voters in the several election precincts be and hereby are authorized and requested to appoint the necessary Judges and Clerks to conduct the election in their respective precincts.

Resolved, That the test required of voters at such election shall be
"I am a legal voter and will support the nominees of the Peoples' Party."

Resolved, That said Convention consist of 101 members, apportioned to the several voting precincts as follows:

By order of the Committee:
R. S. OSBURN,
Chairman.
B. C. MOORE, Secretary.
August 24, 1894-63

A GENTLE WOMAN

Wishes a toilet cream to procure that

Brilliant Transparency of the skin, which is the true beauty of the complexion.

She wishes it to have the true fragrance of the flower and the gentle tonic action of the healing balsams, which render the skin soft, white and beautiful without injury to it.

She wishes the refreshing, soothing effect of the best and simplest ingredients blended into a perfect cream. She finds it in Cocoon Cream and will have no other.

She never uses the paints and face bleaches which are so injurious to the skin. GENTLEMEN after shaving find Cocoon Cream most excellent.

COCOON WATER is the natural fragrance of flowers for the toilet and bath.

COCOON BALM Prevents and heals chapping, breaking and roughness of the skin.

THE COCOON TOILET SPECIALTIES are manufactured only by the

Cocoon Company,
SAN FRANCISCO, CAL.,

and we have secured the agency of same, as it is our constant effort to supply the public with the finest and latest Toilet Artcles and the purest of Drugs and Medicines

FOR SALE BY WM. PINNIGER.

To the People of Reno.

I have lived in your midst for twenty-three years. No person can say I have knowingly misrepresented facts, neither do I misrepresent regarding Viari, Husband and fathers would have happier homes if the mothers and daughters were well. Come and make inquiry. I can show you hundreds of personal letters from those who have been cured, and my own renewed health will prove it also.

VIARI CO.
Mrs. B. E. HUNTER, Fourth St.

C. H. Leadbetter, President of the Columbia River Transportation Co., spent Thursday in Reno and left for Amedee yesterday morning. Mr. Leadbetter is a cousin of our merchant of the same name, and they had not seen each other for many years. He will look at the land and irrigation possibilities in and around Amedee with a view of investment.

RECAPITULATIONS.

Theo. Winters arrived from Carson last night.

Gov. R. K. Colcord arrived from Carson yesterday.

Attorney-General J. D. Torreyson arrived in town yesterday.

The visitors in town gave the streets a lively appearance yesterday.

A nice quiet place to get a cool and refreshing drink is at H. J. Thyer.

J. D. Kersey, assessor of Ormsby county, visited Reno yesterday.

The River and Harbor bill is a law without the President's signature.

A. C. Cleveland of White Pine county arrived on yesterday afternoon's train.

The aristocratic female bicyclists at Long Branch are followed by grooms on wheels.

Garden hose, lawn mowers, paints and oils at lowest prices at Lange & Schmidt's.

For the debilitating effect of August weather nothing is so good as Ayer's Sarsaparilla.

Archibald Steele of Wadsworth, candidate for the Assembly, was shaking hands with friends yesterday.

Miss Winnie Rogers of Oakland, who has been visiting Reno for some weeks left for home yesterday afternoon.

There was a large shipment of butter from the Douglas creamery last night. It was forwarded west by W. F. & Co.

Mrs. B. F. Currier was not as well yesterday afternoon, and grave fears are entertained regarding her condition.

Eighteen cars of cattle arrived on the V. & T. local to-day. They were purchased of T. B. Riekey by Louis Dean.

Hastings' band, under the leadership of Gabe Hoskins, rendered excellent music at the State Convention yesterday.

"Her hair always looks so perfectly lovely." Why? Because she uses Ayer's Hair Vigor. That's the secret of its lustre.

In July 19,968 passengers left New York for Europe. The immigrants arriving in the same time numbered 11,540.

Many of the delegates expressed themselves well pleased with Reno, and said it was the liveliest and prettiest town they had seen for some time.

The largest assortment of heating stoves, parlor stoves, cook stoves and ranges, crockery and lamps at panic prices at Lange & Schmidt's.

Call for Lemps' St. Louis bottled beer. All first-class bars keep it. It is a refreshing and healthful drink this hot weather.

Lieutenant Governor Ponjase is in the field for Congress. He had proxies to give away to men who would support him for the nomination.

Joe Josephs, Clerk of the Supreme Court, paid the JOURNAL office a friendly call last evening. He is not a candidate for any office, though worse and less efficient men are.

"Will the treacherous Changeling advocate the election of the nominees of the Republican convention or sell the party as it did two years ago?" was a question asked by delegates last evening.

"Tule Frank" sat in the Republican convention yesterday evening and after he heard the roll called he drew a long, deep sigh and said: "Boys, things have changed since Willie died."

J. S. McQuillough, Sam'l Dowling of Virginia City, T. B. Riekey and P. E. Murphy of Carson, and J. P. Woodbury of Empire arrived yesterday in attendance on the Republican Convention.

Mrs. Milla Tupper Maynard returned from San Francisco Thursday evening. She addressed a large audience in that city at the request of the Woman's Congress, her subject being, "The Labor Problem." She was enthusiastically received and attentively listened to for over an hour.

The Silver State says one thousand carloads, or about 10,000 tons, of alfalfa hay will be shipped from Lovelock to California this fall. This means about \$90,000 which the farmers of Big Meadows will receive from this one source.

REPUBLICAN STATE CONVENTION.

A Small Attendance and a Number of the Counties Represented Only By Proxy.

The Republican State Convention was called to order yesterday at 1 o'clock at McKissick's Opera House by Enoch Strother, Chairman of the State Central Committee. A band was in attendance and an endeavor was made to create a little enthusiasm, but there was an apparent lack of interest. Delegates gathered slowly, and there were very few spectators. McMillan of Storey county was chosen temporary Chairman, W. R. Randall of Ormsby as temporary Secretary, and H. W. Higgins of Washoe as temporary assistant Secretary. Wm. Baugh of Washoe was selected as temporary Sergeant-at-Arms. Ormsby, Storey and Washoe counties were represented by nearly their full delegations. Very few delegates were present from other counties the representation from them being made up in most instances of one or two delegates, who brought the proxies of the balance of their respective delegations, while in other instances the counties were represented by residents of Carson, Virginia and Reno, as a matter of convenience. Altogether there were about fifty delegates and nearly as many proxies.

Committees on Credentials, Order of Business and Platform were appointed. Considerable time was occupied in deciding whether the Convention should then adjourn until 7 o'clock in the evening or until 9 o'clock this morning. The hour first named was finally decided upon and a recess was taken.

At 7 o'clock the Convention re-assembled and the first order of business was the report of the Committee on Credentials.

The Committee on Organization and Order of Business reported that the temporary officers should be recognized as the permanent officers of the Convention and that the order of the nominations should be as follows:

- 1—Congress.
- 2—Governor.
- 3—Lieutenant-Governor.
- 4—Justice of the Supreme Court.
- 5—Attorney-General.
- 6—State Controller.
- 7—Surveyor-General.
- 8—State Printer.
- 9—Superintendent of Public Instruction.
- 10—Regents of the State University for long and short term.
- 11—Judges for the 1st, 2nd, 3d and 4th Judicial Districts.

The Committee recommended a *viac* vote on all questions, the chairman of each delegation to announce the vote unless otherwise ordered by the delegation.

The report of the committee was adopted.

Following this the Committee on Platform and Resolutions asked for further time, or until 9 o'clock this morning. Delegate Moore of Elko thought that the delay asked for by the Committee was a handicap to the Convention and that further explanation seemed to him to be in order. That it looked like there was chicanery going on somewhere—to either gain time or for some other purpose. He insisted on an explanation from the committee.

H. F. Dartine, for the committee, said that the committee had been at work since 8 o'clock in the afternoon and were making all possible haste, and had been unable to complete the report. That there was no chicanery, and in order to show that there was no intention to delay on the part of the committee, he would move that when the Convention adjourned it adjourn until 9 o'clock in the morning.

At this point A. C. Bragg, a delegate from Washoe, moved that the temporary officers be declared the permanent officers of the Convention. Chairman McMillan explained to Mr. Bragg that the adoption of the report of the Committee on Organization covered that matter entirely.

The Convention then adjourned to meet this morning at 9 o'clock.

THE PROBABLE NOMINEES.

Last evening it was reported that the ticket which will be nominated to-day was agreed upon as follows:

For Governor, A. C. Cleveland of White Pine county; Lieutenant Governor, R. W. Parry of Washoe; Secretary of State, O. H. Grey of Carson; Controller, a new man, as R. L. Horton is not a candidate; Judge of the Supreme Court, M. A. Murphy of Carson; Congressmen, H. F. Bartine of Carson; Attorney General, J. D. Torreyson of Carson; State Treasurer, G. W. Richards of Carson; Surveyor, anybody in Carson who will take it; State Printer, J. E. Eckley of Carson; Superintendent of Public Instruction, Prof. Norris Ring of Reno.

Annual Session of the Nevada Mission.

The tenth annual session of the Nevada Mission met in the M. F. Church, Quincy, Cal., Thursday, August 23, 1894. The Rev. Bishop J. N. Fitzgerald, D. D. in the chair. After devotional exercises the mission was organized for business. Rev. James H. N. Williams was re-elected Secretary, and nominated Rev. H. J. Windsor as his assistant. An address of welcome to the Mission on behalf of the citizens of Quincy was read by Rev. James Whitaker and was fittingly responded to by the Bishop. Nearly all the ministers of the Mission are in attendance and a very pleasant and profitable session will doubtless be held.

REPORTS.

The call for the People's party primary election to be held Saturday, September 15th, for the purpose of electing delegates to the County Convention to be held September 20th, is published this morning.

WEATHER BULLETIN.

A Disturbance of More Than Usual Force—Keely's Discovery.

(Copyrighted 1894, by W. T. Foster.)

Sr. Josiah Mo., Aug. 25.—My last bulletin gave forecasts of the storm waves to cross the continent from August 27th to 31st and the next will reach the Pacific Coast about September 1st, cross the western mountains by the close of the 23, the great central valleys from the 3d to 5th and the Eastern States about the 6th.

This disturbance will be above the average in force and develop its greatest energies west of the Mississippi river.

The force of storms often mentioned in these bulletins, often results in extreme heat and cold, heavy rains or reverse—evaporation and dryness—winds, of any extreme conditions of the atmosphere and weather. It is the force of the storm that causes the extremes of weather to be more noticeable.

Any weather extreme is important to the human race and usually is of a disagreeable character except heat in winter and cold in summer.

The first week of September will be noted for extremes of temperature, heavy local rains and severe droughts in limited localities, tornadoes and other dangerous storms, earthquakes in countries where they are common and extremely high tides.

The warm wave will cross the Western mountains about September 1st, the Great Central valleys about the 3d, and the Eastern States about the 5th. The cool wave will cross the western mountains about the 4th, the Great Central valleys about the 6th, and the Eastern States about the 8th.

In 1893 I published predictions of a severe drought for that year and early in 1894 published predictions of a severe drought for this year. The predictions were based on the same causes and the droughts have covered practically the same parts of the United States.

I have not hitherto been financially able to extend this wonderful discovery to the long and difficult calculations necessary to make it of practical utility for all places, for every month and for every year, but these calculations have been in progress since March 1st, and will be completed during the first months of 1895.

I could quickly convince the National Weather Bureau of the great importance of this discovery and with their vast appliances they could quickly work out the problem and make it of great public utility. But in so doing I would lose all my work that has led up to the discovery. Therefore readers of these bulletins must be a little patient, give me reasonable time and then, through the public press that is now supporting me in this work, they shall have the benefits of my efforts in delving for Nature's secrets.

KEELY'S DISCOVERIES.

Years ago, in these bulletins, it was argued that all things were formed from condensations of ether of space and that all motion and life are results of the condensations of ether and the expansions of matter. "From ether thou comest and to ether thou shalt return."

This theory does not necessarily conflict with any religious dogma, for back of all lies the law of nature which causes condensation and by what power this law was established and is upheld we may never know. In discussing these questions I do not desire to be understood as entering into a controversy over any religious tenet, I discuss only that which may be known scientifically.

Keely is a modern wonder and sympathetic vibration of his Newton's apple. The attention of the great Newton's mind was directed to the cause of gravitation by the falling of an orchard apple, the discoverer of the uses of steam was suggested by the lifting and flatter of an old tea-kettle lid and Keely's mind was started in the path of his great discovery by the sympathetic vibration of the violin string.

Most people have noticed that a long, slow stroke of the bow on one string of the violin, without changing fingers, or pitch of the note, will cause strings on other instruments in the room to vibrate and send forth tones as loud and clear as those that come from under the violin bow.

The strings of a guitar, banjo, base viol, piano or another violin, that are in exact chord and pitch of key with the string touched by the violin bow, will respond in sympathy.

This sympathetic tone, so common in stringed instruments, induced the inquisitive mind of Keely to investigate as to the cause, and the result is that he has discovered how to resolve matter into ether, thus obtaining a power superior to all other motive powers combined and one that is destined to revolutionize the commerce of the world.

Keely's discovery is of much greater importance than any discovery or invention ever made by Edison and when his inventions are completed and he has succeeded in harnessing that most wonderful power and applying it to all kinds of machinery the much ridiculed Keely will become one of the brightest stars ever developed from the race of man.

But give him time. As Clara B. Moore, in *The Arena* for August well says, he first had to discover the force and study its nature and then invent machinery by which to produce it and apply its power. Never before has the discoverer become the inventor.

In a subsequent bulletin the nature of this subtle and newly discovered force will be discussed. In his lectures on this subject, Keely has said:

produced by sympathetic vibration, Mr. Babcock says: "Comparing it with steam it is as different in action as it is opposite in origin. Steam is derived from heat or combustion and so may be said to have a chemical origin while this vapor is a production of mechanical action, a spontaneous energy."

"Vibration, whether considered as an energy or a motion, is an inherent property of matter and therefore spontaneous. Keely's inventions for producing this power are so entirely original and so unlike any other devices that have been constructed that there is nothing in the annals of research to afford a starting point for the understanding. The mechanical means by which this occult energy is added and economized, are as unique as those which belong to electricity but are no more like electrical apparatus than they are like the machinery used with steam."

A BONANZA AT KENNEDY

Eight feet of Gold Ore in the Imperial Mine—The Ore Assays \$104 in gold to the Ton.

The *New Era* publishes an extra giving a detailed account of the bonanza discovered in the Imperial mine at Kennedy. The ore body was cut at a depth of 125 feet from the surface.

The *New Era* says: J. F. Wardner, the Manager of the Imperial did not buy a bonanza three months ago, but took the Imperial on its merits as a pure business venture governed by the profit and loss. There was the ore exposed in five tunnels, here were the returns from his samples, the maximum mining and milling expenses would be so much, the credit balance was so much, and thus the worth of the property estimated. After three months development, a different condition of things exists, and the acumen of a business man is not an essential; for an ore body is uncovered which has a commercial value as it comes from the mine, with a margin so lucrative that it could not be destroyed by mismanagement.

The surface ore is red oxide carrying a large per cent of free gold, a small per cent of yellow lead, with a little silver, and what is said of the Imperial, appertains to the claims of the camp. As depth was attained, especially at the water level, the red oxide gave place to pyrites—sulphurets of iron—with a slightly increased percentage of lead, with here and there a nodule of galena. Below the water level the vein grew stronger and more lead appeared, until at the point in the winze in No. 3 Tunnel from where the north and south drifts were started, the vein showed 4 per cent of lead, carrying a slightly increased amount of gold. From where the drifts were run, the winze had been sunk twenty feet and at that depth the bonanza appears in the form of a sulphuret of lead—galena—which in the glare of a candle sparkles by its cubic crystallization and cleavage. Three feet of lead ore came to view and the next blast uncovered a solid ore body eight feet wide. A foot of the ore on the hanging wall was a clear, firm quartz, ribboned with metal, which when assayed yesterday afternoon, gave \$104 23 in gold, 15 ounces in silver, but no lead. The seven feet intervening to the foot wall was a mass of galena and the entire eight feet of the ledge averaged 20 in gold, 70 ounces in silver and 40 per cent lead. The drift where a three-foot vein is opened, returned \$27 53 in gold, 17 75 ounces in silver and 5 per cent lead.

A concentrated test made of the ore from the north drift and bottom of the winze, gave concentrates valued at \$307 a ton, of which \$15 was lead, \$103 silver and \$181 gold, the lead reaching 72 per cent. Concentrates of this character would command a premium at any smelter.

With the results of development work of the last two days at hand, the question arises: What is the Imperial mine? Mr. Wardner answers: "An immense concentrating property of sulphurets of lead," and supports his statement by asserting that it will be proven the red oxide and pyrites of the surface are the iron capping of vast bodies of lead, carrying gold and silver. He refers to the Leadville mines with their iron cap, to the Bunker Hill and Sullivan, the Eureka mines; to the Broken Hill Proprietary claims, and further calls attention to the fact that the yellow lead intermingled with the surface red oxide and the nodules of pure galena encountered but indicate the extent and richness of the lead bodies which superintendent Dougherty says are just beginning to appear.

The theory that when in a heated state the volatilized lead coming from below charged with the precious metals, permeated the iron ores, would offer a plausible solution of existing conditions and lead to the belief that as depth is attained wonderful bodies of lead ore will be encountered. Supt. Dougherty says the walls continue to widen and

MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterants. 40 YEARS OF SUPERIORITY.

he expects the ore body to increase beyond its present width, in which case square sets will have to be used.

Mr. Wardner was in high spirits yesterday when he saw the strike, and later in the day when he received the returns from six assays of the ore, he treated the town, and well may be related, for the ore showing is the greatest in the western country to-day.

The shifts to be put on in tunnel No. 5, in 200 feet, when advanced 180 feet further will be at the point of intersection if the winze is down 75 feet more by that time.

IS THE "CHANGELING" DAFT?

What It Considers Throwing Fifth.

Yesterday morning the following, which is true to the letter, appeared in the JOURNAL:

It was reported on the streets yesterday that R. L. Fulton would be a candidate for the nomination of Governor at the Republican State Convention to-day. As Mr. Fulton does not pretend to favor free coinage and in this respect cannot be accused of hypocrisy his nomination would make the issue a square and open one between the Silver men and the goldbugs of Nevada. Mr. Fulton has certainly as much ability as any person the convention can name and the JOURNAL hopes he will receive the nomination.

Last evening the *Changeling* had the following reference to the above.

A CONTEMPLATED SCHEME.

It occurs to the *Gazette* that Mr. B. goes out of his way this morning to throw his fifth on R. L. Fulton. Stranger to relate, the "rascal" must have originated in his own brain. Mr. Fulton has no idea of "running" for any office within the gift of the people of this or any other State, and Mr. B. knows it very well.

What the "contemplated scheme" is or what fifth has been thrown on Mr. Fulton by the JOURNAL's reference to him is not apparent.

Well and Happy

Thanks to Hood's Sarsaparilla—Dull Headaches—That Tired Feeling.

Mr. W. H. Toles

San Francisco, Cal.

"One of the greatest mistakes people make is to lock the door after the horse is stolen, or in other words, to wait until they are sick in bed before they do anything for the poor body. Neither my wife nor myself were real sick; I attended to my business, and my wife to her household duties daily. But we had dull, heavy headaches, and a little over-exertion would tire us greatly, and my appetite was very poor. So we took three bottles of Hood's Sarsaparilla, and the result was perfectly satisfactory. I believe Hood's Sarsaparilla.

Saved Us a Severe Sickness

And a big doctor's bill. If people would only remember that "an ounce of prevention is worth a pound of cure," there would be less suffering in the world. My advice to all who do not feel

Hood's Sarsaparilla Cures

well is to take Hood's Sarsaparilla according to directions, and you will be well and happy."

W. H. Toles, 16 1/2 St., San Francisco, Cal.

Hood's Pills cure all liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

ANNOUNCEMENTS.

Political announcements published under this head for \$5, payable in advance.

ARCHIBALD STEELE of Wadsworth announced himself as a candidate for State Legislator, subject to the decision of the Republican Convention of Washoe county.

FIRST NATIONAL BANK BUILDING.
Rooms 13 and 14.

Dr. Fredrick has a complete outfit of the
most improved instruments and will guar-

antee the best results in the treatment of
all dental diseases.

EIG STORIES, NOT WINNINGS.

Exaggerated Reports of Amounts Lost and
Won at the Race Track.

One reason for the great popularity of
racing among men who know nothing
about the sport is the extraordinary for-

times which people are supposed to
make in the course of 15 or 20 minutes

by betting on horses which have a long
price marked opposite their names.

The racing editors of several of the morning
papers are exceedingly careful in making

the winnings and losses of prominent
men on the track, and they are worthy

of comment, but this is not the case of
all the men who sit in the reporters' stand

at the tracks.

Every year some particular man is
glorified, and the stories of his win-

nings are mentioned day after day quite
as a matter of course, but never with

any real notion of the actual facts of
the case. McCafferty, for instance, is

commonly credited by the papers with
having landed between \$50,000 and

\$60,000 on a single race this week, and
a few days before it was solemnly an-

nounced in the papers that "Pittsburg
Phil" had a rather bad two days' rac-

ing, but having landed \$55,000 on Can-

delabra he was feeling more comforta-

ble.

Such winnings as these are noted usually
as a matter of course in the shape of

a footnote or some small item of
news of the track.

The inconsistency of these statements
is apparent sometimes, even to people

who have no knowledge of racing.
When McCafferty rode Rough and

Ready, for instance, the price was 50 to
1, and it was stated that McCafferty

bet \$5,000 of his own and his partner's
money on his mount. Of course it would

be impossible to place such enormous
sums of money on an outside horse, as

the bookmakers are too sharp to be
caught napping that way.

But, assuming that the story is true
and that McCafferty had bet that

amount of money, his winnings would
have amounted to \$250,000 on that par-

ticular race. People who imagine that
the bookmakers at Sheepshead Bay can

pay out \$250,000 on a single overnight
race have a better opinion of the finan-

cial stability of the thing. It is curious to
note how persistently this exaggeration

is practiced, since it is apparent to all
readers that such enormous winnings

are entirely imaginary.—New York
Sun.

Temperature of the Earth.

Goldsmith's Geographical Maga-

zine is naturally for the statement that
the temperature of the earth increases

one degree on an average for each 55
feet of descent into its interior, basing

its conclusions on observations made at
the great shaft at Spersberg, Germany,

which is the deepest boring ever made
by man—4,172 feet. At such a rate of

increase the earth's temperature of only
300 miles is 15,000 degrees above the

zero point of its thermometer. One
of the points of interest in the

theory of the earth's interior is the
question of the temperature of the

interior. The temperature of the

interior is the temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

interior. The temperature of the

BALD HEADS!

What is the condition of yours? Is your hair dry,
harsh, brittle? Does it split at the ends? Has it a
lifeless appearance? Does it fall out when combed or
brushed? Is it full of dandruff? Do your scalp itch?
Is it dry or in a heated condition? If these are some of
your symptoms be warned in time or you will become bald.
